What is a Healthy Snack?

- ❑ A healthy snack includes foods from at least 2 of the 4 food groups in Eating Well with [Canada's Food Guide](#).
- ❑ Make healthy snacks the easy choice by having them visible and ready-to-eat at home or in a lunch kit. Children are more likely to eat what is handy when they are hungry.
- ❑ Offer children a variety of snacks.
- ❑ Healthy snacks are lower in fat, sugar and salt. Foods such as cookies, cake, candy or chips are not healthy snacks and should only be offered occasionally.
